

Effects of a 10 km comet strike on the Earth

Science

- 40km deep instantaneous crater punctures the earth's crust, ejection of 30,000 cubic km of rock into the atmosphere
- Darkening of the skies in latitude belts or globally
- Acidification and poisoning of surface waters, 33% of all life forms destroyed

Biblical Scripture

- ...and something like a great mountain burning with fire was thrown into the sea; and a third of the sea became blood...and he opened the bottomless pit; and smoke went up out of the pit, like the smoke of a great furnace; and the sun and the air were darkened by the smoke of the pit
Revelation 8:8; 9:2
- ...and a third of the sun and a third of the stars were smitten, so that a third of them might be darkened and the day might not shine for a third of it, and the night in the same way.
Revelation 8:12
- ...and a great star fell from heaven, burning like a torch, and it fell on a third of the rivers and on the springs of waters...and a third of the creatures, which were in the sea and had life, died and a third of the ships were destroyed...and many men died from the waters, because they were made bitter. *Revelation 8:9-12*
